TEXA'S 2015 SIGNED BY MILO MANARA

The famous artist from Verona designed, for the eighth consecutive year, the company's prestigious calendar dedicated to the new tool AXONE S TPS and distributed to the "TEXPACK" customers in Europe through TEXA's authorised retailers.

The couple TEXA-Milo Manara is confirmed again this year, the eighth consecutive, with the creation of the new 2015 calendar dedicated to all European workshops. For TEXA, the Maestro from Verona designed a seductive and captivating image dedicated to the very new tool AXONE S TPS.

This time Manara's illustration is set inside a typical tyre shop and the protagonist is a beautiful girl that is carrying out a measurement on the tyre of a vehicle using AXONE S TPS. The innovative tool, premiered during the last edition of Automechanika in Frankfurt, is the ideal solution for all the experts who need to carry out maintenance operations on the TPMS (Tyre Pressure Monitoring System), mandatory in Europe starting from November 1st 2014 for all passenger vehicles.

To receive TEXA's new calendar, starting from January 2015 all European customers subscribed to the "TEXPACK" update service must simply contact their retailer whom will deliver them the special gift as soon as possible.

Furthermore, an electronic copy of the calendar can be downloaded at this link <http://www.texa.it/download/calendario-texa> after filling out a form with all the personal data requested.
